EVA-RG Sun Lounger – Key Features

The Eva RG sun lounger - Please do not compare this lounger with the soft plastic product (that cracks, turns yellow and brittle) that is readily available from most DIY outlets and garden centres.

- Made of synthesised polypropylene resin. The frame is comprised of two halves joined together in their inner sections by metal tubes. The frame is completely horizontal. The Eva RG has an adjustable 3 position backrest
- Stackable
- The feet of the lounger have plates fitted, which protect the frame from ground wear and also improve the stability of the lounger
- The construction is fully modular, so all components are replaceable in the event of damage
- The fabric covers and resin slats are fully interchangeable
- Made of synthesized 100% polypropylene resin and tested to 300 kilo's
- MANUFACTURERS 3 YEAR WARRANTY AGAINST MANUFACTURING DEFECTS
- Exclusive fabric is made from plastic-coated, breathable polyester, with UVA resistance and long-lasting antibacterial protection, thus extending the life of the fabric and making it more hygienic and secure. It also helps to prevent the formation of unpleasant odours and the appearance of stains caused by dampness, these features bear the guarantee of the Sanitized® brand (trademark license number 1748.01)
- Balliu fabric is heat-welded so it will not tear away. It is easy to clean, extremely comfortable, and has memory effect to help retain its shape
- Eco-friendly and are 100% recyclable
